

We are in the crisis time, the crucible time of living with COVID as Church- the variants, the vaccines, the weariness, the losses, the uncertainty.

Here are themes for every week of February, as we place each week in God's merciful hands:

-

-Pray for those sick, those who have died, those at a loss, economically and emotionally, due to the disease.

-Pray for those who lead, in government, Church, culture, health care, business, schools, to find a way through together.

-Pray for researchers, public health officials, doctors, to understand what come next.

-Pray for hopefulness, to imagine what comes next, to exhort those who are weary, to inhabit solidarity, in ourselves, our families, our congregations, those around us.
